

ABHINAV ROBINSON

India (Open to relocate, Open for remote) – (+91) 7895747201 – abhinavrobinson@gmail.com
[linkedin.com/in/abhinavrobinson](https://www.linkedin.com/in/abhinavrobinson) – github.com/abhinavrobinson – abhinavrobinson.dev

Experienced software developer with 3+ years, skilled in Full-Stack Development (Frontend Focus). Proficient in cutting-edge technologies, excelling in Frontend, Backend, DevOps, and Blockchain. Committed to delivering innovative solutions and enhancing user experiences.

React / Next.JS
Tailwind CSS / Styled
Components
TypeScript / JavaScript

GraphQL / TRPC
Prisma / SQL / MongoDB
Pusher / RabbitMQ
Go / Rust

React Native / Expo
AWS / Docker
Blockchain / Ethereum
Solidity / Hardhat

WORK EXPERIENCE

Senior Software Developer – Scope (Soaq A.B.), Sweden

08/2022 - present

- Spearheaded the completion of over 400 Trello tickets, demonstrating exceptional project management and execution skills.
- Orchestrated the successful development and launch of the Abbie 2.0 Shopify Application, now featured on the Shopify App Store, showcasing proficiency in Shopify app development.
- Engineered the Scope Macro 2.0 Shopify Application, contributing to its availability on the Shopify App Store, demonstrating expertise in Shopify ecosystem and application deployment.
- Utilized cutting-edge technologies, including Next.JS and GraphQL (Apollo), to ensure end-to-end type-safety in application development, showcasing proficiency in modern web development frameworks.
- Implemented Web Sockets and integrated Pusher to introduce live services to the React Application, resulting in heightened user engagement and increased motivation for plan upgrades.

Senior Technical Lead - Nonceblox, India

07/2021 - 08/2022

- Successfully completed over 20 projects, demonstrating efficient project management and delivery in the MERN(Mongo DB, Express, React/Next.JS, Node.JS)/Typescript(Javascript) ecosystem.
- Led and managed a dynamic team of 12-15 developers, showcasing strong leadership and teamwork skills.
- Developed robust end-to-end Blockchain smart contracts using Solidity, achieving exceptional test coverage of 80-100%, highlighting expertise in blockchain development and testing.
- Deployed scalable applications with web3 interactions on AWS, showcasing proficiency in cloud-based application deployment and management.
- Collaborated closely with clients on diverse projects, including Digital Asset Management, Stacking, Vesting, NFT Platforms, DAOs, and Betting Platforms, showcasing adaptability and versatility in delivering tailored solutions.
- Employed DevOps technologies, such as Docker, K8s, Lambda Functions, AWS EC2, AWS S3, Github Pipelines, Jenkins, and Hardhat/Jest/Ethers, ensuring end-to-end coverage of Smart Contracts and efficient development workflows.

Full Stack Software Developer - Nonceblox, India

04/2021 - 07/2021

- o Successfully completed 3 projects utilizing full-stack technologies, including Next.JS, Nest.JS, TypeScript, MongoDB, RabbitMQ, GraphQL, and Web Sockets, showcasing proficiency in a diverse tech stack.
- o Integrated various blockchain solidity contracts (Ethereum/Polygon/Binance Smart Chain) with Metamask and decentralized storage solutions like IPFS, demonstrating expertise in blockchain integration and decentralized technologies.
- o Worked with a variety of languages, including TypeScript, Rust, Golang, Solidity, showcasing versatility and adaptability in building innovative and scalable applications.

Software Developer (Application) - Atom, India

11/2020 - 04/2021

- o Collaborated on the development of a cross-platform desktop application within the Electron ecosystem, showcasing expertise in Electron framework for desktop applications.
- o Designed and implemented the user interface, demonstrating proficiency in UI/UX design, while creating supporting native OS scripts for a seamless user experience.
- o Utilized a combination of Python, C++ scripts, and TypeScript to build a top-notch product from the ground up, showcasing a versatile skill set across multiple programming languages.

OPEN SOURCE

Tauri Screen Recorder (Rust based screen capture native application)	23 Stars
Next Range Slider (Next.JS compatible select range slider, made with tailwind)	2900+ Installs
React Date Picker (Datepicker for react, with multirange and modern UI)	Contributor
Shopify Next App (Embedded shopify application made with Next.JS)	Contributor

CERTIFICATIONS

Continuous Delivery and Developer Operations	Coursera, Dec 2021
Azure AI Fundamentals	Microsoft, April 2021
Azure Cloud Fundamentals	Microsoft, March 2021
AWS Academy Cloud Fundamentals	Microsoft, February 2021

PROJECTS

Encrypted Machine Learning	Fully Homomorphic Encrypted Machine Learning
RSNA STR Pulmonary Embolism Detection	Kaggle Challenge
Low Latency Video Conferencing	P2P Fast Low Latency Video Conferencing
Steel Defect Detection	Low Power Image Segmentation
Tumor Detection	Medical Image Detection and Classification
Medical Illness Diagnosis (Bennett Medica)	Artificial Intelligence, Illness Diagnosis Advise Web Application

EDUCATION

Bachelor's in Technology, Computer Science and Engineering (Major AI, DevOps) – Bennett University, Delhi
Batch of 2022
