Summary

Senior Full Stack Developer & Tech Lead | 10+ Years Experience | React.js & Node.js Specialist

With over a decade of hands-on experience as a Developer, I've had the privilege of collaborating with and leading diverse, multicultural teams across different geographies. This international exposure has broadened my perspective and enhanced my problem-solving capabilities, allowing me to navigate and thrive in cross-cultural environments.

My proficiency in React.js, honed over 8+ years, has allowed me to deliver high-quality, optimized solutions that exceed client expectations. Furthermore, my passion for programming and problem-solving has led me to work on diverse projects, ranging from intricate application design to sophisticated code optimization.

In my role as a Tech Lead/Senior Developer, I've cultivated strong leadership skills, motivating and mentoring emerging talent while ensuring both front-end and back-end development adhere to the highest standards of quality assurance and effective project management.

My technical proficiency spans an array of technologies, including but not limited to Next.js, Node.js, TypeScript, and SQL/NoSQL databases. I've taken on projects that required visionary leadership - identifying appropriate technologies, architecting the solution, and translating the vision into a strategic roadmap and budget.

In recent roles, I've been instrumental in setting clear goals and expectations for my team, ensuring optimal performance. In addition, I've successfully managed backlogs, planned iterations, elaborated on user stories, and actively mitigated any impediments impacting the successful completion of Release/Sprint Goals.

My commitment to excellence, technical skills, and leadership capabilities make me an asset to any team that aims to innovate and make a significant impact in the tech industry.

Experience

Senior Full Stack Engineer

Locorum

Jun 2023 - Dec 2023 (7 months)

I worked as a Senior Full Stack Engineer at Locorum, a groundbreaking marketing platform that aims to transform digital referral marketing and customer loyalty for offline businesses. My primary focus was to utilize my knowledge and expertise in Next.js, ReactJS, and Node.js to improve the software solutions offered by Locorum.

Tech Lead | Senior Developer

Fuerza Studio

Apr 2021 - Jun 2023 (2 years 3 months)

Promoted to the position of Technical Leader after showcasing my growth and adaptability.

One of my biggest accomplishments was implementing some best practices that really made a difference. The system scalability increased by 150% and predictability went up by 60%! I also worked on enhancing the backlog management, which resulted in a 25% productivity boost. And through some user story optimization, I was able to reduce development time by 30%.

Something else that I accomplished that is worth mentioning was deploying Storybook, which made component reuse 50% more efficient. I also led a Lighthouse metric strategy and achieved some really great scores in Performance, SEO, and Accessibility. I focused on metrics like LCP (<2.5s), TTI (<3.5s), and CLS (<0.1).

Finally, I got to integrate some innovative technologies, which resulted in over 5 unique solutions

Senior Full Stack

Appgami

Apr 2020 - Apr 2021 (1 year 1 month)

I had the responsibility of guiding a group of developers and managers, and we all worked together to make sure everything ran smoothly. It was a bit complicated because we had to coordinate with different departments, but we managed to make it work!

I helped bring different teams together and made sure everyone was on the same page when it came to planning and building our product. It wasn't always easy, but I made sure everyone's ideas were heard and we came up with a plan that worked for everyone.

Innovation and Future Vision: I introduced cutting-edge technologies and paradigms, identified technical debt, and strategically prioritized its resolution within product management workflows.

Expertise in Technology Stack: I delved deep into Node.js, TypeScript, Next.js, and React.js. I emphasized DevOps practices, leveraged GraphQL, AWS, and led end-to-end testing with Playwright.

Continuous Integration Process Enhancement: I integrated essential tools such as CodeCov and Cypress to optimize management and development operations.

Senior Full Stack Developer

Grupo Skill

Apr 2019 - Apr 2020 (1 year 1 month)

I was the main person in charge of creating this app that brings together all your medical info in one place. Basically, I had to make sure everything was running smoothly, from designing the system to working with everyone involved in the project. Plus, I made sure we followed all the best practices to make it the best it could be.

I took charge of creating a whole new system for a medical app. I made sure it had all the important stuff like keeping track of appointments, scheduling, doctor calendars, and keeping records of medical history.

After the launch, the application facilitated over 10,000 appointments in the first three months and showed impressive scalability. It supported a 200% increase in users within six months.

Full Stack Developer

Accon Delivery

Dec 2012 - Jan 2019 (6 years 2 months)

Origins and Growth: I initiated the platform with a combination of technologies using PHP, MySQL, and JavaScript, providing support to our initial 500+ users. I oversaw its evolution to handle a tenfold increase in users in the subsequent years.

Strategic Technological Evolution: I was responsible for a significant shift to TypeScript, Node.js, MongoDB, collaborative development practices, and React.js, resulting in a 40% improvement in system performance and a substantial reduction in development efforts.

Multifaceted Experience: Over a transformative 7-year journey, I led initiatives that enhanced application responsiveness, achieved a 30% code optimization rate through improvements, and raised test coverage to nearly 100% via unit testing.

Market Domain Expertise: Under my technical guidance, we launched an exceptional e-commerce application, forging partnerships with over 3100+ food brand franchises, capturing approximately 20% of the niche market share in its first year.

Education

Senac - Faculdade de Tecnologia.

Graduação, Tecnologia da Informação

2011 - 2013

Licenses & Certifications

 **Angular 2.0 - Mobile and Desktop.** - Udemy

 **Formação Desenvolvedor Web Java** - 3Way Academy

English Course Cultura Express High

 **React - Modern React with Redux** - Udemy

 **React - Advanced React and Redux** - Udemy

 **Docker for developers** - Udemy

 **React Native Design** - Udemy
