OM Galaxy Limited Secures Patent Through Subsidiary, Infuse HRS Pvt Ltd., for Manufacturing Innovation

Subheading: *New technology developed is designed to simplify hot runner system cleaning and venting in plastic injection moulding*

Mumbai, India – 29th June 2026: Om Galaxy Limited, a pioneer in high-precision mold manufacturing and engineering solutions company, has been granted a patent (Patent No. 590105) by the Patent Office, Government of India for its innovative "Split-Type Hot Runner Manifold for Plastic Injection Molds." This breakthrough innovation is set to redefine productivity benchmarks across the global plastics and injection molding industries.

OM Galaxy expanded its capabilities through Infuse HRS Pvt. Ltd., its specialized subsidiary to address long-standing operational pain points associated with traditional hot runner manifold systems. Traditional hot runner manifolds utilized for polymers like UPVC frequently suffer from degraded material accumulation, demanding extensive maintenance that halts production for prolonged periods. Recognizing the need for a more practical and maintenance-friendly alternative, OM Galaxy Limited engineered an innovative split-type hot runner manifold system tailored to simplify serviceability without compromising performance.

Granted on May 22, 2026, the patent represents a powerful validation of domestic engineering capabilities under the national "Make in India" vision. Designed to overcome complex manufacturing bottlenecks, the patented Split-Type Hot Runner Manifold represents a significant advancement in hot runner system design, this innovation helps to reduce the cleaning time of PVC / CPVC manifolds, after a long production by 90% also. This manifold has a capability of vent out gases formed which infect PVC / CPVC material.

At the center of this innovation is the EZ-CLEAN SYSTEM, a feature designed to dramatically improve cleaning and maintenance efficiency. Unlike conventional systems that often require drilling and complex disassembly or extensive maintenance intervention, the manifold enables operators to clean the system by simply removing solidified resin from the manifold with ease. This significantly reduces maintenance effort and machine downtime while enabling faster turnaround during production changes.

As industries increasingly demand higher productivity, reduced downtime, and more sustainable manufacturing practices, innovations such as the Split-Type Hot Runner Manifold System represent an important step forward in improving moulding efficiency and process reliability. The new technology further cements OM Galaxy's position as an innovation-led engineering company committed to shaping the future of precision tooling and plastics manufacturing.

About OM Galaxy Limited:

Founded in 1986, OM Galaxy Limited is a leading manufacturer of precision moulds for the plastic pipe fittings industry, serving customers across India and global markets. With a portfolio of over 10,000 precision moulds and more than 100 customers worldwide, the company delivers advanced engineering solutions that emphasize quality, innovation, and operational excellence. Through continuous investment in technology, precision manufacturing, and research-led product development, OM Galaxy remains committed to enhancing productivity and shaping the future of plastics manufacturing.
