

RONDOFOAM: The Ultimate Energy-Saving Solution for Pipe Insulation

Are you tired of high energy bills and the constant worry of inefficient pipe insulation in your home? Look no further than RONDFOAM, the grey polyethylene pipe insulation designed specifically for domestic heating, hot and cold water systems. With its exceptional thermal properties, ease of installation, and versatile applications, RONDFOAM is here to revolutionize your insulation experience.

Save Energy, Optimize Efficiency

Say goodbye to wasted energy and the hassle of inadequate pipe insulation with RONDFOAM. Our insulation exhibits stable thermal properties that significantly reduce heat loss, optimizing the energy efficiency of your domestic heating system. Enjoy peace of mind knowing that your energy consumption is optimized, leading to lower utility bills.

Hassle-Free Application

Installing RONDFOAM is a breeze. Our semi-flexible tubes are pre-slit and ready to use, requiring no adhesive or tape. Simply slide the insulation around the pipe, and you're good to go. The closed-cell polyethylene structure of RONDFOAM ensures a clean and fiber-free environment, making it safe and suitable for all domestic pipework applications.

Versatile and Customizable

RONDOFOAM offers a range of thicknesses (6mm -19mm) and inner diameters (9mm - 64mm), allowing you to select the perfect fit for your specific needs. Whether it's for domestic heating systems, hot water pipes, or cold water systems, RONDOFOAM provides optimal insulation tailored to your requirements.

Unmatched Performance and Durability

RONDOFOAM delivers exceptional performance. With a thermal conductivity of just 0.040 W/(m·K) at +40°C, it provides excellent insulation capabilities. Its density of 25 kg/m³ guarantees dimensional stability, ensuring long-term durability. RONDOFOAM is designed to withstand a wide range of temperatures, from extreme heat to chilly winters, making it ideal for Israel's diverse climate.

Easy Maintenance and Long Lifespan

RONDOFOAM requires minimal maintenance, allowing you to enjoy worry-free insulation for years to come. With its high-quality construction and non-reactive properties, RONDOFOAM remains stable and reliable, ensuring optimal performance throughout its lifespan.

Environmentally Friendly Recyclable Choice

RONDOFOAM is committed to sustainability. With zero ozone depletion potential (ODP) and a low global warming potential (GWP), it is an environmentally conscious choice. By investing in RONDOFOAM, you're not only saving energy but also contributing to a greener future.

Upgrade to RONDOFOAM and experience the ultimate energy-saving solution for your domestic heating system. Trust in RONDOFOAM's superior insulation performance, customizable options, and long-lasting durability. Enjoy reduced energy bills, enhanced efficiency, and a more comfortable home. Choose RONDOFOAM, the trusted solution for pipe insulation in Israel.
