ABOUT ME

I'm a full-stack web developer with over 6 years of experience, passionate about building web applications and tools. I love exploring and integrating new technologies into projects. Having collaborated with various corporations, I've helped design and develop websites that solve real-world problems. Staying updated with the latest tech trends is one of my key priorities, keeping me on the cutting edge of innovation.

Work Experience

- **Techling** (Lead Developer)

Mainly focused on front-end and backend client projects and internal projects.

- **Bryxo** (Lead Developer)

Developing and Maintaining Websites and Internal CMS Dashboards. Manage development team, Workflow, Assigning Tasks, CI/CD pipelines, and Overall Design and Development..

- **SmartnHub** (Full-stack web developer)

Manage trainees and assign company new projects to their related departments. Collaborating with the broader development team.

- **WAPEXP** (Front-end intern)

My first working experience was an internship at Wapex as a front-end web developer. I worked there for 6 months and learned many new things like the basics of Photoshop, SEO, and Digital Marketing. It was a great value for me. I spent my most of time there learning new things.
