

# Misho Shubitidze

Design Engineer

Tbilisi, Georgia +995 558 762 267 @ [misho@mshub.dev](mailto:misho@mshub.dev)

<https://mshub.dev>

## Summary

Passionate Design Engineer focused on crafting pixel-perfect, detail-oriented interfaces with exceptional UX. Skilled in refining micro-animations and interactions to create seamless, user-friendly experiences.

## Experience

**ArtOa.io** **September 2024 - Present**  
Frontend Developer Tbilisi, Georgia

[ArtOa.io](https://artoa.io)

[ArtOa.io](https://artoa.io) is a platform connecting wall artists with customers, providing a space for artists to showcase their work and for customers to commission personalized murals. As a frontend developer, I contribute to building a seamless user interface that facilitates communication, project tracking, and payments, creating an engaging experience for both artists and customers.

**JSC TBC Bank** **November 2019 to Present**  
Website Administrator Tbilisi, Georgia

[tbc.ge](https://tbc.ge)

As a Website Administrator at TBC Bank, I manage the company's content management systems (CMS), oversee website structure, and publish content to enhance user engagement. My responsibilities include maintaining the mobile banking applications CMS, the bank's digital signage product and creating user-friendly websites for various initiatives. I leverage my skills in HTML, CSS, and JavaScript to ensure optimal website performance and user experience, contributing to the bank's digital presence and marketing efforts.

**Freelance** **February 2023 to Present**  
Web Developer Tbilisi, Georgia

As a freelance web developer and design engineer, I specialize in building responsive and user-centric websites for diverse clients. Over the past two years, I have successfully delivered projects that enhance brand visibility and user engagement. My expertise includes utilizing modern web technologies and design principles to create tailored solutions that meet client needs. I manage the entire development lifecycle, from initial concept to deployment, ensuring high-quality deliverables and effective communication throughout the process.

## Projects

### TBC Business Award Website

Full Stack Developer

<https://tbcbusinessaward.ge>

Built both the frontend and backend for JSC TBC Bank's Business Award website using Next.js.

The platform enabled companies to showcase their companies, and compete in various categories.

### E-commerce platform

Full Stack Developer

Created an internal application for a company where employees could log in and design their own hoodie as a Christmas gift. The interactive platform allowed users to customize hoodie color, design, size, and place an order in their name, with delivery to their branch. The system streamlined the ordering process and personalized the gifting experience.

## Education

**Agricultural University of Georgia** **2016 - 2021**  
Electrical and Computer Engineering Engineering
