

# Myles Jefferson

## Full-Stack Developer

---

 Akron, Colorado    (970) 520-6672    [mylesjefferson.dev@gmail.com](mailto:mylesjefferson.dev@gmail.com)    [linkedin.com/in/mylesjefferson/](https://www.linkedin.com/in/mylesjefferson/)

---

Well-qualified Full Stack Developer familiar with wide range of programming utilities and languages. Knowledgeable of backend and frontend development requirements. Collaborative team player with excellent technical abilities, offering 2.5 years of related experience.

## Work Experience

### Full-Stack Developer

Viaero Wireless, Fort Morgan, Colorado

April 2022 - Present

- Collaborated with team members to write clean and well tested 10+ full stack web applications serving various company departments.
- Created application using QuickBase and custom JavaScript code to help account for 50k worth of previously untracked ISP equipment.
- Implemented CI/CD pipelines with Docker containers to streamline application deployment via Linux virtual machines.
- Refactored legacy codebases to modernize software architecture and improve maintainability.

## Projects

### Gatherr

Progressive Web Application

- Responsible for developing a progressive web app with React, Amazon Web Services (AWS), OAuth 2.0 authorization, and Google Calendar API data
- Performed extensive testing with Enzyme, Jest, and Cucumber
- Implemented authorization with serverless AWS Lambda functions.

### FilmFever

MERN Stack Application

- Created a RESTful API with Node.js and Express that interacts with a MongoDB database using Mongoose
- Tested API endpoints with Postman and deployed API online with Heroku
- Crafted a responsive front-end experience complete with routing and polished user interactions.
