Work History

2021-02 - Current

Software Developer/Tech Lead/Engineering Manager

CODE Éxitos, San Pedro Sula

- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Revised, modularized and updated old code bases to modern development standards, reducing operating costs, and improving functionality.
- Successfully led development and management of over 10 projects within tight timeframe of 2 years, catering to diverse international clients, including Wendy's, Takeda, Simera, Stellantis, etc.

2020-10 - 2021-01

Technical Support Specialist

PartnerHero, San Pedro Sula

- Resolved 125 technical support inquiries per day.
- Explained technical information in clear terms to promote better understanding for non-technical users.
- Assisted customers in identifying issues and explained solutions to restore service and functionality

Accomplishments

- Served as Lead Programmer on multiple projects.
- Promoted to Senior Software Developer within 24 months of employment.
- Successfully completed over 5 projects within budget and ahead of schedule.
- Contributed to the documentation of the open-source project NestJS.
