 ziad-hatem

Summary

Driven and results-oriented Frontend Developer with a proven track record of delivering high-performing, user-focused applications across diverse sectors. Proficient in modern JavaScript frameworks—including React.js, Next.js, and TypeScript—alongside Tailwind CSS and Redux to create intuitive, scalable interfaces. Adept at converting complex business requirements into robust solutions, employing SOLID principles, CI/CD pipelines, and responsive design to ensure superior code quality and user experience. Possesses a history of successful collaboration on impactful projects such as Jeddah International College, Saudi Banks, and Sand & Fun. Equally proficient in backend integrations using Prisma, GraphQL, and SQL databases, providing comprehensive end-to-end development insights. Currently pursuing a BS in Computer Science through the Open Source Society University, reinforcing strong competencies in algorithms and data structures. Recognized for adaptability, keen attention to detail, and a commitment to continuous learning—consistently adopting emerging technologies to deliver innovative digital solutions.

Projects

Jeddah International College   *Live* ↗
- As a Front-end Developer, I led the project to deliver a responsive, modern platform for JIC's community in record time.
- Collaborated with an incredible team to tackle challenges, manage risks efficiently, and ensure seamless execution.
- Employed agile methodologies, effective time management, and a strong focus on teamwork to enhance the educational experience.

Saudi Banks   *Live* ↗
- Designed the comprehensive portal for Saudi Banks, streamlining access to a wide array of financial products and services.
- Provided an informative hub for both personal and corporate banking clientele, simplifying navigation to essential resources.
- Leveraged expertise in Web Development, UI/UX design, and SEO to enhance user engagement and elevate the portal's online visibility.

Sand & Fun   *Live* ↗
- Built the official website for Sand & Fun, the Saudi General Aviation Airshow, delivering an immersive online experience for aviation enthusiasts.
- Showcased event details such as daily schedules, speakers, exhibitors, and the exciting airshow teams, organized by the Saudi Aviation Club at Al-Thumamah Airport, Riyadh.
- Focused on user engagement and brand storytelling, highlighting the science and culture of aviation to provide a memorable and inspiring experience for visitors of all ages.

Juffali Trucks   *Live* ↗
- Rebuilt Juffali Trucks' website with a pixel-perfect design, showcasing over 1,000 trucks, trailers, and applications while significantly improving performance and user experience.
- Enhanced accessibility by optimizing location-based services in Riyadh, Dammam, and Jeddah, and integrated flexible financial solutions, comprehensive warranties, and top-tier customer support.
- Demonstrated expertise in Web Development, UI/UX, and Branding to deliver a high-impact platform that boosted online visibility, user engagement, and overall brand presence.

Meena Health   *Live* ↗

- Created a user-friendly web platform for Meena Health, a pioneering primary healthcare innovator, ensuring accessible solutions for patients.
- Leveraged cutting-edge technology to enhance patient care and reinforce Meena Health's commitment to health and wellness.
- Showcased expertise in Web Development, UI/UX design, and Healthcare Innovation, aligning with Meena Health's mission to make quality healthcare accessible to everyone.

Technical Skills

- **Frontend Development:** React.js, Next.js, TypeScript, Tailwind CSS, Redux.js, Framer Motion, React Query

- **Advanced Concepts:** Design Patterns, Design Systems, Responsive Web Design, Performance Optimization

- **Backend & Databases:** Prisma, MySQL, MongoDB, PostgreSQL, GraphQL

- **Programming Languages:** JavaScript, PHP, HTML, CSS, SQL

- **Tools & Frameworks:** Git, GitHub, GitLab, Bitbucket, Bootstrap, ShadCN UI

- **Design & Prototyping:** Figma, Photoshop

- **Version Control & CI/CD:** Git, GitHub Actions

Soft Skills

Strong problem-solving and analytical thinking

Time management and task prioritization

Collaboration in diverse and remote teams

Self-motivated with a passion for continuous learning

Experience

Frontend Developer   *KSA*
Brackets Technology   *Nov 2024 – Present*

- Collaborated with the development team to translate business requirements into responsive, high-performance web applications for B2B clients.
- Delivered custom frontend solutions tailored to diverse industries, ensuring seamless user experiences and adherence to client specifications.
- Focused on aligning frontend functionalities with user needs, improving engagement, and optimizing performance for a variety of projects.

Education

Open Source Society University   *Sept 2024 – Present*
BS in Computer Science

- **Comprehensive CS Knowledge:** Completed the OSSU (Open Source Society University) curriculum, mastering core computer science concepts, algorithms, and data structures through top-tier courses from institutions like Harvard and MIT.
- **Self-Directed Learning:** Developed strong discipline and self-motivation by independently completing a rigorous, university-level computer science education, demonstrating the ability to learn complex topics autonomously.
- **Global Collaboration:** Engaged with a worldwide community of learners, enhancing problem-solving skills, communication, and the ability to collaborate on projects with peers from diverse backgrounds.

Benha University   *Sept 2024 – Present*
Bachelor of Laws
